MEMORANDUM FOR: (See Distribution)

SUBJECT: U-2R Summary Report (31 December 1968)

1. The attached U-2R Summary Report is the second prepared on that Weapon System and depicts maintenance-oriented data collected through 31 December 1968.

2. This edition adheres to the format established in the 30 September 1968 U-2R Summary Report. Now that all U-2R aircraft have been delivered and with flying activity on the increase, we find it will be necessary that the data displays in future reports be revised. In addition, the increasingly significant information that is being received through the Aircraft Flight Maintenance Reporting System (AFMR) will permit a greater exploitation of this data source.

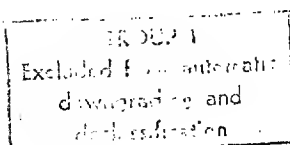

3. It is planned that the next U-2R Summary Report cover the period of 1 January through 31 March 1969.
